**STANDARD PRICING:**

Cynthia Bennett paints digitally from reference photos. The more reference photos supplied the better the likeness can be produced.

After proofing on the computer screen, the painting is printed with archival ink to either a fine art rag paper or canvas. The canvas can be stretched over a frame or mounted on an art-board.

Framing is available in a wide variety of styles from a simple shadow box to a floating mount and matt.

Paintings are produced and burned onto a CD.
